LEADERSHIP
ENGINEERING
SCIENCE
TECHNOLOGY
MATH

GO FOR LAUNCH | @HIGHERORBITS | (707) 893-STAR | PO BOX 4092, LEESBURG, VA 20177
TO FIND OUT MORE AND REGISTER VISIT: WWW.GOFORLAUNCH.SPACE OR EMAIL GOFORLAUNCH@HIGHERORBITS.ORG
*SCHOLARSHIPS MAY BE AVAILABLE FOR THOSE WHO HAVE FINANCIAL NEED. PLEASE CONTACT US FOR DETAILS
WHAT IS IT?
A program that uses Space Exploration as a platform to launch student involvement in:
- STEAM (Science, Technology, Engineering, Art & Math)
- Teamwork
- Communication
- Leadership

ARE THERE HANDS ON ACTIVITIES?
Student teams will work together on collaborative activities before or after nearly every talk to earn daily awards. Each team will work together to define and design their own space experiment & present their ideas to a panel of judges from the Space & STEM fields. The judges will choose a winner from each Go For Launch! event. The experiment will go on to compete against other projects from the same division and the winning experiment will be launched into space!

WHY SHOULD I ATTEND?
Go For Launch! is a unique and memorable experience. Space inspires! The Go For Launch! experience gives students experience and skills that can lead to success in any venture that requires imagination, leadership, teamwork, and problem solving skills.

WHAT CAN I EXPECT?
Learn about human spaceflight directly from experts in the fields of space & STEM including:
- An Astronaut and Astronaut Instructor
- International Space Station Flight Controller
- Scientists and Engineers
Get personalized insight and feedback from experienced space and STEM professionals whose goals are to illustrate the numerous possibilities that exist in the world of STEM. Work with a real live astronaut for each day of the event.

THE TEAM
Captain Wendy Lawrence is a retired naval aviator and NASA astronaut. As a helicopter pilot, she made several shipboard deployments to the North Atlantic, Indian Ocean and Kenya. After earning a master’s degree in ocean engineering from MIT and Woods Hole Oceanographic Institution (WHOI), Lawrence was selected as an astronaut in 1992 and worked at NASA for 14 years. A veteran of four shuttle missions (STS-67, 86, 91 and 114), she has logged over 50 days in space.

Michelle spent 10 years working at NASA primarily in International Space Station (ISS) Flight Control Operations Planning and as an Astronaut Instructor in the Daily Operations Group. Her passion for inspiring students led to extensive work with other organizations in STEM outreach. She then decided to form Higher Orbits to continue to work to inspire students about the wonders of STEM through spaceflight.
